

MIDTERM REPORT - MAT 203

Hunlede, K.

| Quantitative assessment | Problem 1 | Problem 2 | Problem 3 | Problem 4 | Problem 5 | Weighted Total |
|-------------------------|-----------|-----------|-----------|-----------|-----------|----------------|
| Class Average | 57.0% | 60.3% | 81.7% | 53.1% | 23.1% | 52.6% |
| Hunlede, K. | 43.3% | 30.0% | 80.0% | 45.0% | 0.0% | 36.0% |

| Qualitative assessment | Individual | Classroom comparison |
|--|------------|----------------------|
| Understanding of vector algebra and geometry. | Poor | Below average |
| Understanding of qualitative aspects of vector-valued, single-variable functions. | Moderate | Below average |
| Understanding of qualitative properties of limits, continuity and derivatives (in particular, the differences between single-variable and multi-variable functions). | Moderate | Below average |
| Understanding of quantitative properties of vector-valued functions and scalar-valued multivariable functions. | Moderate | Below average |
| Capacity to analyze problems, identify the required tools, and employ them correctly. | Poor | Below average |

Grades (scaled)

| Homework 1 (15) | Homework 2 (15) | Midterm (25) | Weighted average | Anticipated grade |
|-----------------|-----------------|--------------|------------------|-------------------|
| 4.5 | 15.0 | 9.0 | 51.8% | C- |
