Qualitative

What, if anything, did you find most valuable about this course? -

- It was over the summer and did not compile with other classes.
- The professor is a very good person that a lots of extra credit on the midterm. It helped a lot.

In what ways, if any, could the course be improved? -

- The final is too hard. I prepared the final by practicing the homework and reading text book theorem and examples. I can do most of the work on the text book but I can't even do the final easily. I can also say that there are nothing being tested from my review. This is very strange. Hope I can get a C or higher.
- The lectures did not provide techniques relevant to the homework, and were heavily based in theory as opposed to examples.
