

# MIDTERM REPORT - MAT 203

Feng, B.

Quantitative assessment	Problem 1	Problem 2	Problem 3	Problem 4	Problem 5	Weighted Total
Class Average	57.0%	60.3%	81.7%	53.1%	23.1%	52.6%
Feng, B.	86.7%	80.0%	80.0%	80.0%	25.0%	71.0%

Qualitative assessment	Individual	Classroom comparison
Understanding of vector algebra and geometry.	Good	Above average
Understanding of qualitative aspects of vector-valued, single-variable functions.	Good	Above average
Understanding of qualitative properties of limits, continuity and derivatives (in particular, the differences between single-variable and multi-variable functions).	Excellent	Above average
Understanding of quantitative properties of vector-valued functions and scalar-valued multivariable functions.	Excellent	Above average
Capacity to analyze problems, identify the required tools, and employ them correctly.	Moderate	Above average

## Grades (scaled)

Homework 1 (15)	Homework 2 (15)	Midterm (25)	Weighted average	Anticipated grade
13.5	15.0	17.8	84.1%	A-
